

CALL FOR NOMINATIONS

Do you, or someone you know, have a BIG IDEA about renewable electricity?

[Clean Energy BC](#), the industry association representing the province's private-power producers, is looking for interesting people with interesting ideas about how to:

- Increase the **overall market** for clean-energy generation in BC, and/or
- Improve the **performance** of existing clean-energy generation technologies in BC, and/or
- Increase **public awareness of and interest in** clean-energy generation in BC.

The BIG IDEA could be a product, service, technology, campaign, or innovation, whether an idea or a prototype. We're seeking nominations for contestants who would be willing to pitch their BIG IDEA from the stage at our GENERATE 2018 conference, November 27th, 2018, in Vancouver. The audience will vote to choose the best BIG IDEA, and there will be a prize!

For more info, visit <http://generate2018.ca> and scroll down to the blog post, "Big Ideas Show Promises Sequins, Solutions." Deadline for nominations: November 14th.

Note: For the purposes of this event, "clean energy" means any technology that generates electricity without producing any significant operational greenhouse-gas emissions.
